CAREER OBJECTIVES

Enthusiastic and dedicated Computer Science graduate from Universiti Teknologi PETRONAS seeking to build a career in Data Analytics, Software Development, or Artificial Intelligence. Eager to apply analytical and technical skills to solve real-world problems, contribute to innovative projects, and continue developing professionally within a collaborative work environment.

EDUCATION

Universiti Teknologi PETRONAS

- **Bachelor of Computer Science (Hons)** **2022-2025 | CGPA: 3.92**
  - Major in Data Analytics | Minor in Financial Management
- **Foundation of Science in Computer Science** **2021-2022 | CGPA: 3.89**
- **Dean's List Award Recipient for all semesters**
- **Yayasan UTP Scholarship Recipient**

SMK Undang Rembau **2016-2020 | SPM: 7A+ 2A**

EXPERIENCE

Software Development Support Intern | Verity Intelligence Sdn. Bhd.
Technology Department (Database Division) | May – December 2024

- Contributed to the Data Crawlers Workflow Enhancement project by developing and optimizing automated scrapers using UiPath.
- Developed Python scripts using Selenium and Google Cloud Vision for automated web scraping and data extraction.
- Engineered a MyKad image verification module using OpenCV and YuNet face detection.
- Deployed Python-based automation bot as executable Windows service.
- Executed regression and User Acceptance Testing (UAT) to resolve defects before product deployment.

ACADEMIC PROJECTS

AI-Driven Financial Scam Detection System using NLP and Malaysian Social Media Data | *Final Year Project*

- Developed an end-to-end machine learning system using Natural Language Processing (NLP) to detect financial scams on Malaysian social media platforms.
- Performed text preparation, feature extraction, and model training.
- Evaluated and fine-tuned a multilingual BERT (mBERT) model against a baseline Support Vector Machine (SVM), achieving a superior ROC-AUC score of 0.9327.
- Deployed the final model via an interactive Streamlit prototype featuring simulation capabilities to demonstrate practical, real-world application.

Alertify – Disaster Response App | *Technopreneurship Team Project*

- Co-developed a real-time flood alert and emergency response mobile application designed to enhance disaster preparedness and public safety.
- Integrated the Public Infobanjir API using Thunkable to successfully extract, format, and display live flood data for end-users.
- Demonstrated strong technical adaptability by independently mastering new low-code development environments to overcome data formatting challenges and deliver accurate updates.

SKILLS

- **Programming Languages:** Python, C++, Java, SQL, Visual Basic, R
- **Cloud Platforms:** Amazon Web Services (AWS)
- **Data Analytics & Visualization:** Data Collection and Preparation, Data Cleaning and Validation, Spreadsheet Analysis, SQL Queries and Joins, Spreadsheet Formulas and Pivot Tables, Tableau, Dashboard Creation, Data Storytelling
- **Technologies, Frameworks & AI:** UiPath, MATLAB, Arduino, Thunkable, eNSP, Natural Language Processing (NLP), Transformer Models (mBERT), Streamlit, OpenCV, Selenium WebDriver, Google Cloud Vision, YuNet Face Detection
- **Generative AI & Applications:** Prompt Design and Refinement, AI-Assisted Research and Summarization, AI-Assisted Data Analysis, AI-Assisted Content Creation, App Prototyping with Generative AI
- **Concepts & Methodologies:** Web Scraping, Data Extraction, Image Processing, Data Ethics and Data Quality, Regression Testing, User Acceptance Testing (UAT), Automation Bots, Windows Service Configuration
- **Developer Tools & Software:** Google Gemini, NotebookLM, Google Sheets, MS Office Suite (Word, PowerPoint, Excel, Outlook, Publisher)
- **Languages:** Malay, English
- **Core Competencies:** Analytical Thinking, Problem Solving, Stakeholder Communication, Teamwork, Leadership, Project Management, Time Management, Task Prioritization, Emceeing

EXTRA-CURRICULAR ACTIVITIES

Association for Information Systems-UTP-Student Chapter (AIS-UTP-SC) **2023 - 2024**

- Vice President (2024), Secretary I (2023)
- Organized two national-level competitions and one club event in 2023

Kelab Kembara & Rekreasi UTP (KKR Ramblers) **2021 - 2025**

- Secretary I (2023), Public Relations Committee (2021-2022)
- Organized two national-level events and three university-level events in 2023

ESTECH 2023 Coding King Competition **23 – 24 August 2023**

- Supervisor
- National Level – 20 teams' participations

KRAKEN X KEMBARA International Coastal Cleanup Day 2023 **29 September – 2 October 2023**

- Secretary
- National Level – Perhentian Island, Terengganu
- Successfully removed 209.5kg of underwater debris and mainland trash

AIS-UTP-SC Career Awareness Video Competition & Chit-Chat Session **September – December 2023**

- Project Director
- National Level – 13 teams' participations

Sawasdee English Camp 2.0 (MPU4 Project) **18 – 22 January 2024**

- Head of Public Relations Department
- Princess of Naradhiwas University (PNU), Narathiwat, Thailand
- 19 committee members, 29 PNU participants

AWARDS AND CERTIFICATIONS

Google Data Analytics Professional Certificate
Google via Coursera | 1 October 2026

Google AI Professional Certificate
Google via Coursera | 18 August 2026

AI Ready Malaysia: Student Edition Certificate
Pepper Labs Sdn Bhd | 15 August 2026

AWS Academy Graduate - Cloud Foundations - Training Badge
Amazon Web Services Training and Certification | 28 November 2025

1st Runner Up, Oh My Code! Competition
University Level | May 2022
